

Thermoelectric Cooler Performance Specifications

TEC1-127080-30X34 W150mm

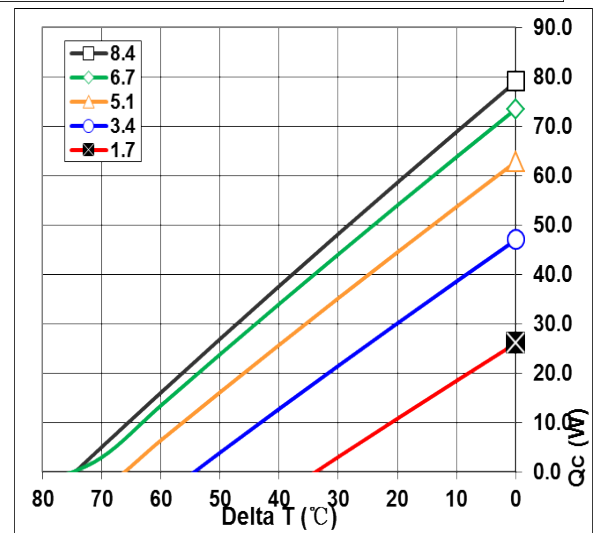

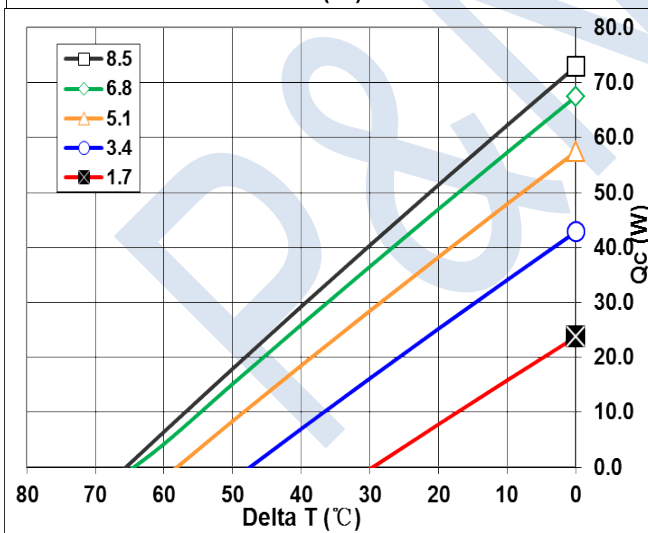

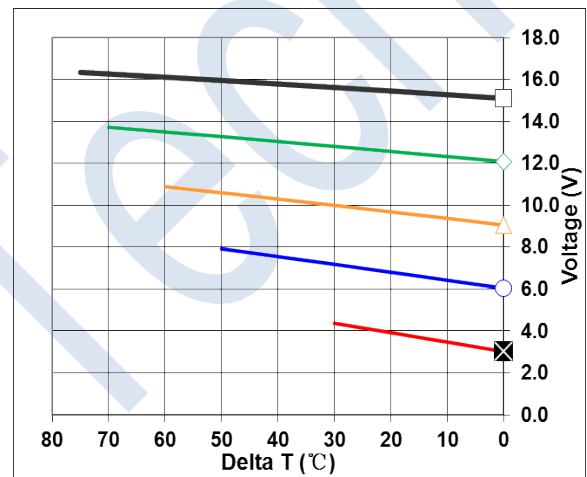

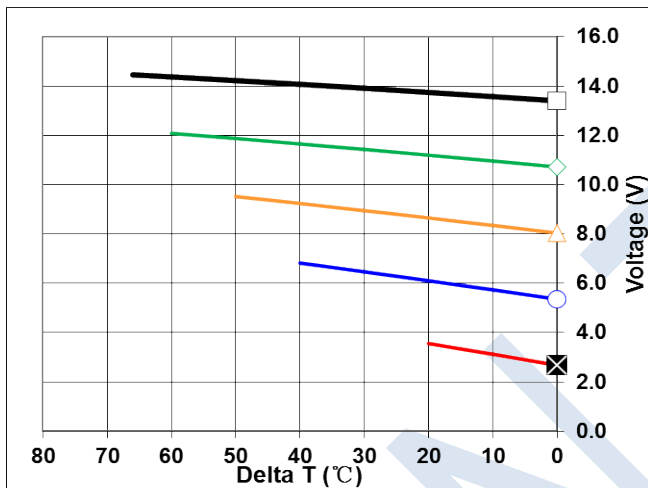

Hot Side Temperature(°C)	25 °C	50 °C
Qmax (Watts)	73	80
Delta Tmax(°C)	67	75
I <sub>max</sub> (Amps)	8.4	8.4
V <sub>max</sub> (Volts)	15.4	16.4
Module Resistance(Ohms)	1.58	1.78

\*\*Tolerances for thermal and electrical parameters ± 10%.

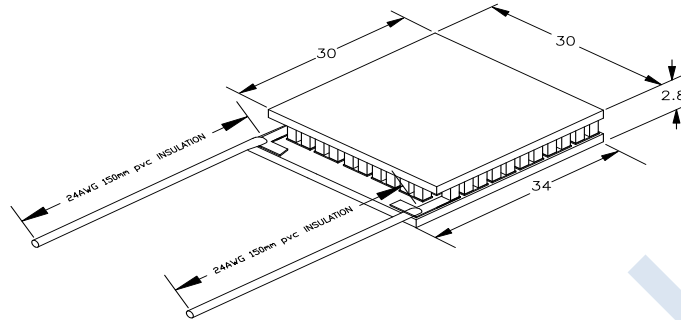

Performance Curves Th=25 °C

Performance Curves Th=50 °C

Mechanical Drawing:

**Operation Tips:**

- Max Operating Temperature: **90°C**.
- Do not exceed  $I_{max}$  or  $V_{max}$  when operating module.
- Please consult P&N Technology for moisture and corrosion protection options.

**Address:** 5/F Xinfei Building 28<sup>th</sup> Xiangming Road, Torch (xiang'an) Hi-tech Zone, Xiamen Fujian China.

**Sales Tel:** + 86 - 592 - 352 1988

**Fax:** +86-592-352 1989

**Postcode:** 361 101

**Web:** [www.pengnantech.com](http://www.pengnantech.com)
